

Item#1 response by the architect's letter to the Commission question dated October 24 states that "Theater staff will provide personnel assistance to, and/or wheelchair for, those patrons with limited mobility that are being dropped off in front of the Theater or park in the garage."

Their questions are:

- 1) Will the parking garage have an attendant so that when the public drives in they can ask for assistance at that time;
- 2) If there is no attendant will there be a white courtesy phone or some other notification device (i.e. intercom) near the elevator tied to the cineplex lobby, manager, etc. so that they can ask for assistance?
